PROFESSIONAL SUMMARY

Dedicated and highly skilled Frontend Developer with over four years of hands-on experience in building dynamic web applications using the React.js library and its extensive ecosystem. Known for delivering high-quality, user-centric solutions and collaborating effectively within cross-functional teams to achieve project goals.

EDUCATION

Lagos State University – Lagos State, Nigeria

2016-2020

Bachelor of Science in Computer Science

Cumulative CGPA: 4.05/5.0.

One of the best-graduating students in the department.

WORK EXPERIENCE

Frontend Developer, Plateaumed Limited - May/2022 - July/2023 - Lagos, Nigeria

Plateaumed offers simplified, affordable world-class healthcare solutions through electronic medical records system, hospital management information system. <https://plateaumed.com/>

- Led the engineering and adoption of Next.js, Redux toolkit, and .Net as backend service for developing Plateaumed EMR solution.
- Optimized components to work seamlessly across different browsers and devices
- I implemented the dashboard prototype using Tailwind CSS styling library and seamlessly communicated with API services using Redux Toolkit Query for caching and optimized performance.
- I built a sophisticated, clean, accessible, and responsive user interface that meets Quality acceptance.
- I actively participated in sprint planning, retrospective meetings, and pair programming.
- Contributed to the 3x growth of a digital product within my first 6 months in the role.

Frontend Developer, Jetron Mall Limited - June/2022 - August/2022 - Lagos, Nigeria

Jetron Mall Limited is Next-generation online mall, an intermediary online store making easy and stress-free exchange between brands and buyers.

- Created data visualization tools, libraries, and reusable code for prospects.
- Leveraged the inbuilt React utilities to create frontend features and functionalities in the application such as custom hooks and helper functions used in the application.
- I developed a new customized login tool that reduced customer signup time by 30% and doubled the number of customers who signed up in 6 months.

→ I built a fully responsive and pixel-perfect dashboard UI using Next UI architecture alongside emotion-styled library.

PREVIOUS EXPERIENCES

→ **Frontend Developer, AngleStack** - May/2023- October/2023 – London, UK

→ **Frontend Developer, Samar** - August/2022- January/2023 – London, UK

SIDE PROJECTS

Samar: Samar is not a tourism shopping tax refund agent, affiliate, or company. It only provides tools that help users manage and keep track of the amount and status of their shopping tax refund through its smart, digital wallet.

URL: <https://www.trysamar.com/>

The technology used: Next .Js, and Google Tag Manager (GTM).

Isolo LCDA: is a website built for Isolo Local Government with the aim of making government easier to access at the grassroot. **URL:** <https://isololcda-raashot12.vercel.app/> **The technology used:** Gatsby, GraphQL, SASS, Strapi

Jetron App: A platform for you to discover, share and promote your events, and sell your event tickets. **URL:** <https://www.jetronticket.com/>

The technology used: Next.js, GraphQL, Chakra, Node.js, and Postgres DB

Julieth: is a conversational AI tech expert who helps you throughout your tech journey—the Future of Scalable Learning. **URL:** <https://juliet-ai.vercel.app/>

The technology used: Next.js, Rest API, [Bootstrap](#), Mongo DB

Others:

1. **Boldo:** <https://boldo-six.vercel.app/>
2. **Sheruta:** <https://debug-1.vercel.app/>

CERTIFICATIONS

JavaScript (Intermediate) Certificate

Problem Solving (Intermediate)- React (Basic) Certificate

TECHNICAL SKILLS

3. React.js Development:

- Expertise in developing and implementing user interface components using React.js.
- Proficient in utilizing React.js concepts, workflows, and libraries such as Redux, Flux, Next.js, TypeScript, and Webpack.

- Experience in building reusable React.js components and libraries for efficient development.

4. Front-end Development:

- Strong understanding of front-end technologies including HTML5, CSS3, and JavaScript.
- Proficient in responsive web design and mobile-first development principles.
- Experience with front-end frameworks like Bootstrap, Material-UI, Tailwind css.

5. Progressive Web Applications (PWA):

- Familiarity with progressive web application concepts and best practices.
- Ability to optimize applications for better performance, offline capabilities, and smooth user experience.
- Experience with service workers and caching strategies to enable PWA functionality.

4. Performance Optimization:

- Proven ability to profile and optimize front-end performance.
- Knowledge of performance measurement tools and techniques to identify and resolve performance bottlenecks.
- Familiarity with code splitting, lazy loading, and other optimization strategies.

5. Documentation:

- Strong documentation skills to effectively communicate and maintain front-end codebase.
- Experience in writing clear and concise technical documentation for developers and stakeholders.
- Ability to create and maintain code documentation using tools such as JSDoc or Markdown.
- Proven ability to use Miro and Code Doc
